TRANSLOOK STUDIO / PUBLIC PRODUCT BRIEF

Translook Spatial Display

Model roles and confirmed software mappings for TS32, TS43, TS55 and TS86.

Model	Deployment role	Confirmed mapping
TS32	Counters and repeatable retail deployment	Translook.Press
TS43	Flexible commercial projects	Confirmed per project
TS55	Flagship retail and product storytelling	Translook.Space + Translook.Press
TS86	Automotive, museums, exhibitions and showrooms	Translook.Space + Translook.System + Translook.Press

Specification status

This public brief deliberately excludes unverified dimensions, weight, brightness, power, mounting and interface values. Final technical specifications are issued for the selected model and project configuration.

Frequently asked questions

Can the display run locally?

Yes. Translook.Space supports local playback.

Is cloud operation required?

No. Translook.Press is optional for remote updates and multi-location operation.

How are final specifications issued?

They are confirmed with the model, site conditions, content and quotation scope.
